

Specification

Product Name: Red Concentrated Food Colour Paste
Product Code: SPEC0227

Description:

Our concentrated colour pastes come in a range of colours, which means you can bring your cake, ice cream or food decorating dreams to life. Use without changing the consistency of the product you are working with. Add a small amount and slowly increase until you have the required colour. As the pastes dry your colour will darken slightly so a little goes a long way.

For ease try to use a toothpick to dip into the paste and then add it to your edible medium for a clean and easy method. This also means you can accordingly create different shades. If you want something stronger, and more vibrant, then add the paste little by little to achieve the shade you desire.

Specifications:

List any processing aids used	N/A
Current Ingredient Declaration / Legal Declaration (include QUID and emphasised Allergens)	E124, E104 May have adverse effects on the activity and attention in children. Humectant (E422), Bulking agents (E1520, E551), Colours (E124, E104,) Water.
Sensory Specification (Describe the product in terms of taste, texture, colour, appearance and aroma)	Red Liquid Colour

Additional Requirements:

Alcoholic Strength by Volume (ABV) (if contains >1.2% by volume)	N/A
Origin / Place of Provenance if required	Great Britain
