

## Specification

**Product Name:** Marshmallow Flavour Drop

**Product Code:** SPEC0291

**Description:**

Food Flavouring Drops are premium quality water soluble intense flavours which provide an exceptionally efficient method of adding flavour. They are a highly concentrated, versatile, multi-use product for both food and liquid. They should be used sparingly; 1-2 ml is ample to flavour 1 litre of base liquid. Each 30ml bottle contains approximately 800 drops. Food Flavouring Drops disperse well in most foods and drinks. They are ideal for flavouring cakes, icings, fondants, ice cream, sorbets, cupcakes, pastry, salads, sauces, frostings, ganache, desserts, cocktails, drinks, cream, wine, beer, spirits, sweets and more. They can also be used to enhance the flavour of a dish, without changing the texture of the original product.

**Odour & Flavour:**

Characteristic. Conforms to standard.

**Ingredients:**

Natural flavouring substances, Propylene Glycol (E1520).

**Dietary Information:**

Suitable for Vegans, Ovo-lacto Vegetarians & Vegetarians, Non-GMO, Gluten Free, Allergen Free, Non-Irradiated, No Added Sugar.

**Nutritional Information:**

Energy: 1673.6kj/400kcal (Based on 100g)

**Storage:**

Dark, dry and cool conditions, not in direct sunlight.

**Packaging:**

|         |               |
|---------|---------------|
| 30ml    | 5056191019838 |
| 500ml   | 5056191019845 |
| 1 Litre | 5056191019852 |
| 5 Litre | 5056191019869 |

**Country of Origin:**

United Kingdom.

**Shelf Life:**

24 months if stored as above and unopened.

**Density (g/ml) at 20°C:**

1.050 – 1.070

[www.specialingredients.co.uk](http://www.specialingredients.co.uk)

Tel: 01246 906247 | Foxwood Industrial Park, Chesterfield, S41 9RN, United Kingdom  
Registered UK Company No: 08758412 | UK VAT No: GB175274393

**Refractive Index at 20°C:**

1.430 – 1.450

**Flashpoint °C (closed cup):**

&gt;75

**Labelling according to Regulation (EC) No. 1334/2008:**

Flavouring

**Hazards:**

Non hazardous

### Allergen Declaration

### Material Safety Data Sheet

**1: Identification of the substance/mixture and of the company/undertaking:****1.1 – Product identifier**

Product form: Mixture,

Product name: Marshmallow Flavour Drop.

**1.2 – Relevant identified uses of the substance or mixture and uses advised against:****1.2.1: Relevant identified uses:** Food and/or beverage Flavouring**1.2.2: Uses advised against:** Not for direct consumption**1.3 – Details of the supplier of the safety data sheet:**

Company: Special Ingredients Ltd, 4 Foxwood View, Chesterfield, S41 9RN. Tel: 0044 (0)1246 906247

**1.4 - Emergency Telephone Contact:** 07387 330318. <https://specialingredients.co.uk/pages/contact>[www.specialingredients.co.uk](https://specialingredients.co.uk)Tel: 01246 906247 | Foxwood Industrial Park, Chesterfield, S41 9RN, United Kingdom  
Registered UK Company No: 08758412 | UK VAT No: GB175274393

**2: Hazards Identification:****2.1 – Classification of the substance or mixture:**

Classification according to Regulation (EC) No. 1272/2008 (CLP): Not classified

Adverse psychochemical, human health and environmental effects: To our knowledge, this product does not present any particular risk, provided it is handled in accordance with good occupational hygiene and safety practice.

**2.2 – Label elements:**

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

EUH-statements : EUH210 - Safety data sheet available on request.

**2.3 – Other hazards:**

Contains no PBT/vPvB substances  $\geq 0.1\%$  assessed in accordance with REACH Annex XIII.

| <b>Component</b>                           |                                                                                                                                                                                 |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Maltol (118-71-8)                          | This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII<br>This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII |
| 4-hydroxy-3-methoxybenzaldehyde (121-33-5) | This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII<br>This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII |
| Propylene glycol (57-55-6)                 | This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII<br>This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII |

The mixture does not contain substance(s) included in the list established in accordance with Article 59 (1) of REACH for having endocrine disrupting properties, or is not identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at a concentration equal to or greater than 0.1%.

**3: Composition/Information on Ingredients:****3.1 – Substances:**

Not applicable.

**3.2 – Mixtures:**

| <b>Name</b> | <b>Product identifier</b>              | <b>%</b> | <b>Classification according to Regulation (EC) no.1272/2008 (CLP)</b> |
|-------------|----------------------------------------|----------|-----------------------------------------------------------------------|
| Maltol      | CAS-No.: 118-71-8<br>EC-No.: 204-271-8 | 1 – 5    | Acute Tox. 4 (Oral), H302                                             |

Full Text of H- and EUH statements: see section 16.

**4: First Aid Measures:****4.1 – Description of First Aid Measures:**

First-aid measures after inhalation: Remove person to fresh air and keep comfortable for breathing.

[www.specialingredients.co.uk](http://www.specialingredients.co.uk)

Tel: 01246 906247 | Foxwood Industrial Park, Chesterfield, S41 9RN, United Kingdom  
Registered UK Company No: 08758412 | UK VAT No: GB175274393

First-aid measures after skin contact: Wash skin with plenty of water.

First-aid measures after eye contact: Rinse eyes with water as a precaution.

First-aid measures after ingestion: Call a poison center or a doctor if you feel unwell.

#### **4.2 – Most important symptoms and effect, both acute and delayed:**

No additional information available

#### **4.3 – Indication of any immediate medical attention and special treatment needed:**

Treat Symptomatically.

### **5: Firefighting Measures:**

#### **5.1 - Extinguishing media:**

Suitable extinguishing media: Water spray, Dry powder, Foam, Carbon dioxide.

#### **5.2 – Special hazards arising from the substance or mixture:**

Hazardous decomposition products in case of fire: Toxic fumes may be released.

#### **5.3 – Advice for firefighters:**

Protection during firefighting: Do not attempt to take action without suitable protective equipment. Self-contained breathing apparatus. Complete protective clothing.

### **6: Accidental Release Measures:**

#### **6.1 – Personal precautions, protective equipment and emergency procedures:**

##### **6.1.1 – For non-emergency personnel:**

Emergency procedures: Ventilate spillage area.

##### **6.1.2 – For emergency responders:**

Protective equipment: Do not attempt to take action without suitable protective equipment. For further information refer to section 8. "Exposure controls/ personal protection."

#### **6.2 – Environmental Precautions:**

Avoid release to the environment.

#### **6.3 – Methods and material for containment and cleaning up:**

Methods for cleaning up: Take up liquid spill into absorbent material. Notify authorities if product enters sewers or public waters.

Other information: Dispose of materials or solid residues at an authorized site.

#### **6.4 – Reference to other sections:**

For further information refer to section 13.

### **7: Handling and Storage:**

#### **7.1 – Precautions for safe handling:**

Precautions for safe handling: Ensure good ventilation of the work station. Wear personal protective equipment.

Hygiene measures: Do not eat, drink or smoke when using this product. Always wash hands after handling

the product.

## 7.2 – Conditions for safe storage, including any incompatibilities:

Storage conditions: Store in a well-ventilated place. Keep cool.

## 7.3 – Specific end use(s):

No additional information available

## 8: Exposure Controls/ Personal Protection:

### 8.1 – Control parameters:

#### 8.1.1 National occupational exposure and biological limit values

|                                               |                                       |
|-----------------------------------------------|---------------------------------------|
| Propylene glycol (57-55-6)                    |                                       |
| United Kingdom - Occupational Exposure Limits |                                       |
| Local name                                    | Propane-1,2-diol                      |
| WEL TWA (OEL TWA) [1]                         | 474 mg/m <sup>3</sup>                 |
|                                               | 10 mg/m <sup>3</sup>                  |
| WEL TWA (OEL TWA) [2]                         | 150 ppm                               |
| Regulatory reference                          | EH40/2005 (Fourth edition, 2020). HSE |

#### 8.1.2 Recommended monitoring procedures

No additional information available.

#### 8.1.3 Air contaminants formed

No additional information available.

#### 8.1.4 DNEL and PNEC

No additional information available.

#### 8.1.5 Control banding

No additional information available.

### 8.2 – Exposure controls:

#### 8.2.1 Appropriate engineering controls

Ensure good ventilation of the work station.

#### 8.2.2 Person protective equipment

Wear recommended personal protective equipment

Personal protective equipment symbol(s)

**8.2.2.1 Eye and face protection**

| Eye protection |                      |                 |            |
|----------------|----------------------|-----------------|------------|
| Safety Glasses |                      |                 |            |
| Type           | Field of application | Characteristics | Standard   |
| Safety Goggles | Droplet, Dust        | Clear, Plastic  | EN 166 1B3 |

**8.2.2.2 Skin protection**

| Skin and body protection |           |
|--------------------------|-----------|
| Type                     | Standard  |
| Lab Coat                 | ASTM F903 |

| Hand Protection                              |                      |                   |                |             |                                                                |
|----------------------------------------------|----------------------|-------------------|----------------|-------------|----------------------------------------------------------------|
| Protective gloves against chemicals (EN 374) |                      |                   |                |             |                                                                |

| Powered Air-purifying Respirator (PAPR) | Filter AX (brown), Filter P (white), Type A – High Boiling (>65 °C) organic compounds | Protection for liquid particles, Protection for solid particles, Short term exposure | EN 12941 |

**8.2.2.4 Thermal hazards**

No additional information available.

**8.2.3 Environmental exposure controls**

Environmental exposure controls: avoid release to the environment.

**9: Physical and Chemical Properties:****9.1 – Information on basic physical and chemical properties:**

Physical state: Liquid

Colour: Almost Colourless.

Odour: Characteristic. Conforms to Standard.

Odour threshold: Not available

Melting point: Not applicable

Freezing point: Not available

Boiling point: Not available

Flammability: Non flammable.

Explosive limits: Not available

Lower explosion limit: Not available

Upper explosion limit: Not available

Flash point: > 60 °C

Auto-ignition temperature: Not available

Decomposition temperature: Not available

pH: Not available  
Viscosity, kinematic: Not available  
Solubility: Not available  
Partition coefficient n-octanol/water (Log Kow): Not available  
Vapour pressure: Not available  
Vapour pressure at 50°C: Not available  
Density: 1.06 (1050 – 1070) g/ml at 20°C  
Relative density: Not available  
Relative vapour density at 20°C: Not available  
Particle characteristics: Not applicable

## 9.2 – Other information:

### 9.2.1 Information with regard to physical hazard classes

No additional information available.

### 9.2.2 Other safety characteristics

Refractive index: 1430 – 1450  
Other properties: 100% Passes through 560 micron filter

## 10: Stability and Reactivity:

### 10.1 – Reactivity:

The product is non-reactive under normal conditions of use, storage and transport.

### 10.2 – Chemical Stability:

Stable under normal conditions.

### 10.3 - Possibility of hazardous reactions:

No dangerous reactions known under normal conditions of use.

### 10.4 – Conditions to avoid:

None under recommended storage and handling conditions (see section 7).

### 10.5 – Incompatible materials:

No additional information available.

### 10.6 – Hazardous decomposition products:

Under normal conditions of storage and use, hazardous decomposition products should not be produced.

## 11: Toxicological Information:

### 11.1 – Information on hazard classes as defined in Regulation (EC) No 1272/2008:

Acute toxicity (oral): Not classified  
Acute toxicity (dermal): Not classified  
Acute toxicity (inhalation): Not classified

| Maltol (118-71-8) |                                                                                    |
|-------------------|------------------------------------------------------------------------------------|

## 11.2 – Information on other hazards

### 11.2.1 Endocrine disrupting properties

No additional information available.

### 11.2.2 Other information

Other information: Special Ingredients Ltd do not test on animals, this is historical information.

## 12: Ecological Information:

### 12.1 – Toxicity:

Ecology – General: The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

Hazardous to the aquatic environment, short-term (acute): Not classified

Hazardous to the aquatic environment, Long-term (Chronic): Not classified

| <b>Maltol (118-71-8)</b> |                                                                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| LC50 – Fish [1]          | > 100 mg/l (OECD 203: Fish, Acute Toxicity Test, 96 h, Danio rerio, Static system, Experimental value)                                           |
| EC50 - Crustacea [1]     | 27 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna, Static system, Fresh water, Experimental value, Locomotor effect) |
| ErC50 algae              | 7.2 mg/l (OECD 201: Alga, Growth Inhibition Test, 72 h, Pseudokirchneriella subcapitata, Static system, Fresh water, Experimental value, GLP)    |

| <b>4-hydroxy-3-methoxybenzaldehyde (121-33-5)</b> |                                                                                                                                               |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| LC50 – Fish [1]                                   | 57 mg/l (Equivalent or similar to OECD 203, 96 h, Pimephales promelas, Flow-through system, Fresh water, Experimental value)                  |
| EC50 - Crustacea [1]                              | 36.79 mg/l (OECD 202: Daphnia sp. Acute Immobilisation Test, 48 h, Daphnia magna, Static system, Fresh water, Experimental value, GLP)        |
| ErC50 algae                                       | 120 mg/l (OECD 201: Alga, Growth Inhibition Test, 72 h, Pseudokirchneriella subcapitata, Static system, Fresh water, Experimental value, GLP) |

| <b>Propylene glycol (57-55-6)</b> |                                                                                                                                                 |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| LC50 – Fish [1]                   | 40613 mg/l (96 h, Oncorhynchus mykiss, Static system, Fresh water, Experimental value)                                                          |
| ErC50 algae                       | 24200 mg/l (OECD 201: Alga, Growth Inhibition Test, 72 h, Pseudokirchneriella subcapitata, Static system, Fresh water, Experimental value, GLP) |

**12.2 – Persistence and Degradability:**

| <b>Maltol (118-71-8)</b>      |                                 |
|-------------------------------|---------------------------------|
| Persistence and degradability | Readily biodegradable in water. |
| ThOD                          | 1.52 g O /g substance           |

| <b>4-hydroxy-3-methoxybenzaldehyde (121-33-5)</b> |                                 |
|---------------------------------------------------|---------------------------------|
| Persistence and degradability                     | Readily biodegradable in water. |

| <b>Propylene glycol (57-55-6)</b> |                                                            |
|-----------------------------------|------------------------------------------------------------|
| Persistence and degradability     | Biodegradable in the soil. Readily biodegradable in water. |
| Biochemical oxygen demand (BOD)   | 0.96 – 1.08 g O /g substance                               |
| Chemical oxygen demand (COD)      | 1.63 g O /g substance                                      |
| ThOD                              | 1.69 g O /g substance                                      |

**12.3 - Bioaccumulative Potential:**

| <b>Maltol (118-71-8)</b>                        |                                                                    |
|-------------------------------------------------|--------------------------------------------------------------------|
| Partition coefficient n-octanol/water (Log Pow) | 2.3 (Experimental value, Equivalent or similar to OECD 117, 25 °C) |
| Bioaccumulative potential                       | Low potential for bioaccumulation (Log Kow < 4).                   |

| <b>4-hydroxy-3-methoxybenzaldehyde (121-33-5)</b> |                                                                                                         |
|---------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Partition coefficient n-octanol/water (Log Pow)   | 1.17 (Experimental value, OECD 107: Partition Coefficient (n-octanol/water): Shake Flask Method, 25 °C) |
| Bioaccumulative potential                         | Low potential for bioaccumulation (Log Kow < 4).                                                        |

| <b>Propylene glycol (57-55-6)</b>               |                                                                           |
|-------------------------------------------------|---------------------------------------------------------------------------|
| Partition coefficient n-octanol/water (Log Pow) | -1.07 (Experimental value, EU Method A.8: Partition Coefficient, 20.5 °C) |
| Bioaccumulative potential                       | Not bioaccumulative.                                                      |

**12.4 - Mobility in soil:**

| <b>Maltol (118-71-8)</b> |        |            |                                                      |
|--------------------------|--------|------------|------------------------------------------------------|
| Organic                  | Carbon | Normalized | 0.668 (log Koc, SRC PCKOCWIN v2.0, Calculated value) |

|                                     |                       |
|-------------------------------------|-----------------------|
| Adsorption Coefficient<br>(Log Koc) |                       |
| Ecology – soil                      | Highly mobile in soil |

**4-hydroxy-3-methoxybenzaldehyde (121-33-5)**

|                                                                  |                                     |
|------------------------------------------------------------------|-------------------------------------|
| Organic Carbon Normalized<br>Adsorption Coefficient<br>(Log Koc) | 3.438 (log Koc, Experimental value) |
| Ecology – soil                                                   | Low potential for mobility in soil. |

**Propylene glycol (57-55-6)**

|                                                                  |                                                               |
|------------------------------------------------------------------|---------------------------------------------------------------|
| Surface tension                                                  | 71.6 mN/m (21.5 °C, 1.01 g/l, EU Method A.5: Surface tension) |
| Organic Carbon Normalized<br>Adsorption Coefficient<br>(Log Koc) | 0.46 (log Koc, Calculated value)                              |
| Ecology – soil                                                   | Low potential for mobility in soil.                           |

**12.5 - Results of PBT and vPvB assessment:**

| Component                                  |                                                                                                                                                                                 |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Maltol (118-71-8)                          | This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII<br>This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII |
| 4-hydroxy-3-methoxybenzaldehyde (121-33-5) | This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII<br>This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII |
| Propylene glycol (57-55-6)                 | This substance/mixture does not meet the PBT criteria of REACH regulation, annex XIII<br>This substance/mixture does not meet the vPvB criteria of REACH regulation, annex XIII |

**12.6 – Endocrine disrupting properties**

No additional information available.

**12.7 – Other adverse effects**

No additional information available.

**13: Disposal Considerations:****13.1 – Waste treatment methods:**

Waste treatment methods: Dispose of contents/container in accordance with licensed collector's sorting instructions.

**14: Transport Information:**

In accordance with ADR/IMDG/IATA/ADN/RID.

**14.1 UN number**

UN-NO. (ADR): Not applicable

UN-NO. (IMDG): Not applicable

UN-NO. (IATA): Not applicable

UN-NO. (ADN): Not applicable

UN-NO. (RID): Not applicable

**14.2 UN proper shipping name**

Proper Shipping Name (ADR): Not applicable

Proper Shipping Name (IMDG): Not applicable

Proper Shipping Name (IATA): Not applicable

Proper Shipping Name (ADN): Not applicable

Proper Shipping Name (RID): Not applicable

**14.3 Transport hazard classes****ADR**

Transport hazard class(es) (ADR): Not applicable

**IMDG**

Transport hazard class(es) (IMDG): Not applicable

**IATA**

Transport hazard class(es) (IATA): Not applicable

**ADN**

Transport hazard class(es) (ADN): Not applicable

**RID**

Transport hazard class(es) (RID): Not applicable

**14.4 Packing group**

Packing group (ADR): Not applicable

Packing group (IMDG): Not applicable

Packing group (IATA): Not applicable

Packing group (ADN): Not applicable

Packing group (RID): Not applicable

**14.5 Environmental hazards**

Dangerous for the environment: No

Marine pollutant: No

Other information: No supplementary information available

**14.6 – Special precautions for user:****Overland transport**

Not applicable

**Transport by sea**
